SHARP Launches Feature-Rich PN-LM Series Interactive Displays for Versatile Engagement

Modern Collaboration, Exceptional Value – Sharp’s New Mid-Size Displays Bring Interactivity and Flexibility to Small Meeting Spaces and Touch Signage Applications

MISSISSAUGA, ON, July 2nd, 2025 – Sharp Electronics of Canada Ltd. proudly announces the launch of its new PN-LM Series interactive displays, a powerful addition to Sharp’s professional display lineup. Designed to meet the needs of evolving hybrid workplaces, educational environments, and interactive signage applications, the PN-LM Series combines best-in-class touch performance with exceptional value and usability.

Available in 43” and 55” mid-size formats, these interactive displays deliver seamless collaboration right out of the box. With a built-in CTS -Certified Android 14 operating system, these displays function like standalone touch tablets. They support sideloading Android apps and can run content directly from third-party digital signage platforms—perfect for schools, retail, and public sector applications looking for a simplified, PC-free deployment.

Optimized for Today’s Collaborative Environments

The PN-LM Series transforms small meeting rooms and signage deployments with intuitive, responsive capabilities including:

- **Pen-on-Paper User Experience:** Featuring zero-bonded glass and advanced infrared touch technology for natural, precise writing and drawing.
- **Built-in Whiteboard and Annotation Tools:** Ideal for brainstorming sessions, team collaboration, or classroom instruction.
- **Windows Ink Support:** Seamlessly integrates with Windows 10/11 devices for smooth annotation and drawing.
- **Wireless Screen Sharing:** The included e-Share™ app enables cable-free content sharing across devices – no dongles or software downloads required.
- **USB-C Connectivity:** A single cable handles data, video, audio, and charging, simplifying BYOD workflows.
- **Flexible Orientation:** Supports landscape, portrait, and tilted desk setups with a uniform 4-sided slim bezel for a clean, modern look.

“With the launch of the PN-LM Series, we are offering a flexible, secure and highly intuitive solution for both collaborative spaces and interactive signage,” said Rolland Manger, Senior Director, Marketing and

Business Planning at Sharp Canada. “It reflects our commitment to making professional display technology more accessible to Canadian businesses, educators, and institutions without compromising on quality or innovation.”

Pre-Installed Apps Enhance Productivity

The display’s preloaded software suite includes tools that enhance daily operations:

- OfficeSuite Viewer for reading Office and PDF documents directly from USB drives
- Built-in Web Browser for quick and easy access to online content
- File Manager for accessing internal storage, USB, or OneDrive cloud files
- Whiteboard and EShare Apps to streamline collaboration and content sharing

Designed for clarity in well-lit rooms, the anti-glare, high-haze display surface eliminates distractions while maintaining vivid image quality.

Now Available in Canada

The PN-LM Series is now available to Canadian customers, continuing Sharp Canada’s dedication to offering professional-grade solutions that support smarter collaboration and interactive engagement. To learn more, visit sharp.ca.
