

MultiSync® PNME Series Large Format Displays

PNME552, PNME652 : AVAILABLE NOW
PNME432, PNME502 : AVAILABLE IN MARCH

Create pixel-perfect imagery at a cost-conscious price point with the new fully commercial SHARP PNME Series large format displays. The PNME series gives customers a reliable, high-haze, mainstream display to fit their digital signage needs. The flexible Android 13-powered system-on-chip platform allows for high-end media playback via USB or internal storage and the ability to install separate APKs if a third-party application needs to be installed.
