MICROWAVE OVEN BUILT-IN TRIM KIT

STAINLESS STEEL

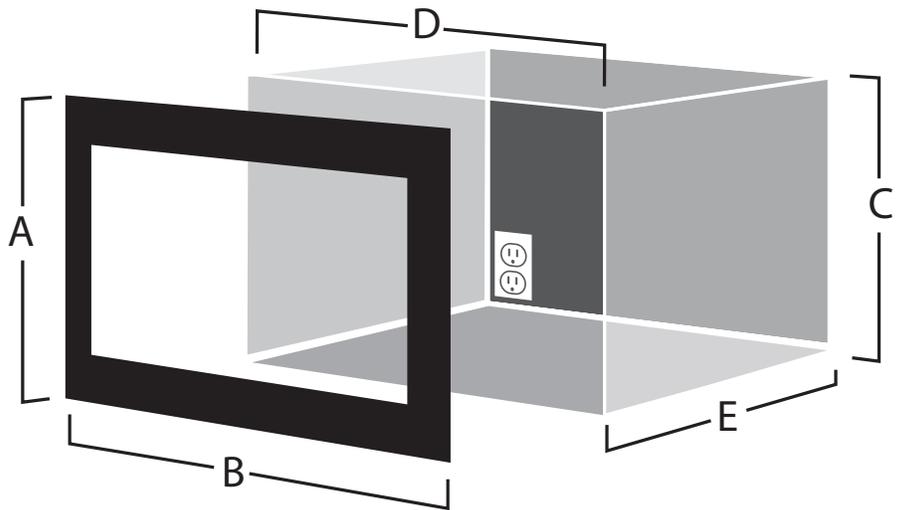

SNAP-IN OUTER FRAME & MOUNTING FRAME

CAN BE USED FOR BOTH STANDARD OR FLUSH MOUNT INSTALLATION

DESIGNED FOR SHARP® COUNTERTOP AND CONVECTION MICROWAVE OVENS

STYLISH DESIGN AND A STAINLESS STEEL FINISH CREATES A SEAMLESS, BUILT-IN APPEARANCE

INCLUDES DUCTING, FINISH TRIM, AND EASY-TO-FOLLOW INSTRUCTIONS

When building-in a Sharp® Countertop Microwave Oven, be sure to use the proper Sharp built-in kit. All Sharp kits are cUL® approved and provide ductwork to assure proper air circulation around the product. Never enclose a microwave oven so tightly that air cannot circulate around it. It will not function properly in a tight enclosure. Prepare the cabinet or wall opening to provide access to a separate 3-pronged, 120V AC outlet of 15 amps or greater. Not all microwave ovens can be built-in. Check the nameplate located on the inside of the microwave oven for the correct built-in kit. **Always refer to the installation guide for recommendations.**
